Finds Its Loveliest Expression in Costumes of Bridesmaids.

Washington November 25 .- The bridal gown worn at the White House wedding to-day was of white satin a soft weave, but of a light and very lustrous quality. Real point lace, orange blossoms and embroidery added elegance and beauty. The skirt was the modish draped one, the fullness showing most on the left front. The showing most on the left front. The neck was cut out a little and the embroidery, of an orange blossom design, outlined the opening and also extended down the side front of the bodice and

the skirt. The sleeves were finished off with frills of the point lace. The lace also appeared in the draped waist, and where the folds were caught waist, and where the tons were caught it was with tiny clusters of orange blossoms. The bridal flower also held the draped folds on the skirt. The train was very long—long enough for regulation court use—and was cut square at the end.

The tulle bridal veil almost fell the length of the train. It was held to the coiffure by a cap of point lace similar to the lace trimming the dress. The Dutch cap style of veil arrangement was exceedingly becoming to the bride, bon, lace whose fair hair, very smoothly dressed costume. In colls close to her head, gave just the right effect. Orange blossoms sprayed the lace, and formed something of a wreath around the head.

Nellie Grant and Algernon Sartoris were married in the East Room, because the company gathered, like that of to-day, was too large for any other room. A similar reason held at the Longworth-Roosevelt wedding. So it was for another President's daughter, Elizabeth Tyler, when she married William Waller and had a wedding described as the most brilliant of similar events up to that time. She was a great beauty, just nineteen, and left her father's home and the White House to begin her married life in a quiet country place.

As a last resort, my mother advised me to try Cardui, the woman's tonic, and my husband bought me a bottle. I could tell from the first that it was doing me good, and by the time I had taken the first bottle I could stand on my feet. I got another botstand on my feet. I got another bot-
